

NCMEC Rider Certification

Ride for Missing Children

May 15, 2009

A rider is certified if

1. He or she has participated in a NCMEC ride in a prior year.
- or
2. He or she has successfully participated in one or more training ride; completed the training ride without obvious difficulties like not being able to keep the required pace.
- or
3. He or she has been certified by the Safety & Training Committee or their appointee.

A rider who has not met one of the above criteria is not certified and is not allowed to participate in the ride. Please understand this is a safety issue; we ride so close together we do not want to endanger any of the riders.
